

Here is how you can save money on your spending:

Bring food and drinks from home instead of purchasing lunch on campus.

Plan your shopping around major shopping events depending on what is to be purchased. The following is a list of various shopping events:

- Back to School (Stationary)
- Black Friday/Click Frenzy (Electronics)
- Easter (Clothing)
- Boxing Day (Most things)
- EOFY (Most things)

Students who live on their own or have their own vehicle should **comparison shop** between insurance and utility providers. Make sure to **read the fine print** for additional fees and clauses relating to cancelling the contract.

Further tips for spending wisely:

Comparison shopping and **price matching** are essential to guarantee a good deal and can be done at most electronics retailers such as Officeworks, JB-Hi-Fi, Good Guys, Bing Lee and Harvey Norman update prices daily.

Not all stores have the same prices, which allows you to either shop at the cheapest store, or try and **price match** at one of their competitors for a better deal or a more convenient transaction.

All the above stores aside from Officeworks **allow negotiating** or will **reduce their price** upon request, although this does vary between products and stores.
